Task 1

```html
<html>
    <head>
        <title>MyDocument</title>
        <script>
            function selectAllimages()
            {
                const images= document.querySelectorAll('img');
                const imagesArray = Array.from(images);
                return imagesArray;
            }
            console.log(selectAllimages);
        </script>
    </head>
    <body>
        <img src="https://media.gighy.com/media/jaqvaWqpKflmQ/gighy.gif" alt="
all">
        <button onclick="selectAllimages">Click me</button>
    </body>
</html>
```

Task 2

```html
<html>
    <head>
        <title>myDocument</title>
        <script>
            const cpat = 'advanced web';
            const function capitalized(){
                const put = document.querySelectorAll('p');
            }
            console.log(cpat.toUpperCase());
        </script>
    </head>
    <body>
        <p>advanced web</p>
        <button onclick="capitalized();">cpat</button>
    </body>
</html>
```
